EXPERIENCE

ANDMORE · powered by Blackstone Group
Senior Software Engineer - Frontend

ANDMORE, powered by Blackstone Group, is a leading wholesale e-commerce experience within the Home Décor, Furniture, Gift, and Apparel space.

JULY 2017 - PRESENT

- Principal frontend engineer on our latest Buyer Portal application: Scratch built in React/Next.js. Completed and launched in 6 weeks.
- Engineered ground-up development and new features as a part of multiple fast-paced Agile teams.
- React, VueJS, Typescript, Next.js, Nuxt, .NET MVC.
- Delivered world class features across the product suite including a digital marketplace, b2b e-commerce websites, sales-rep order writing application, and related admins.
- Implemented third party integrations: SignalR, LaunchDarkly, Segment, Contentful, GA, TokenEx.
- Led the frontend hiring team post acquisition, conducting technical interviews, reviewing code challenges, and providing final recommendations to leadership.

New York Daily News
Frontend Developer

NOVEMBER 2012 - JULY 2017

- Responsible for all frontend code as a member of a two-person team in a fast paced, Agile environment.
- Built out responsive redesign of major site sections including articles, galleries, home page, headers, footers, and special sections.
- Led the site-wide CSS to SASS conversion.
- Managed third party integration: Facebook, Twitter, YouTube, Outbrain, Edmunds, Nexteppe, Olapic, Stats Inc., Nativo, Yieldmo.

JSM Music
Audio Engineer

SEPTEMBER 2007 - NOVEMBER 2012

- Lead developer for jsmmusicology.com and content manager for jsmmusic.com. Responsible for all asset management, updates, and social media.
- Delivered digital media via FTP, encompassing final voice-over mix and video sync.
- Managed internship program. Led recruitment, onboarding, training, and shift scheduling for a team of 15.
